

## Postdoctoral association at Western (PAW) Archive 2008

### November 2008

'Western's Postdocs Win Union Battle' A note: This headline is misleading, since 'the battle' was really won by the post-doctoral associates (PDAs) only, a 15-20% of Western's postdocs. The reason is that UWO cannot acknowledge the right of post-doctoral fellows (PDFs) to be represented by the union (PSAC). The newly founded [School of Graduate and Postdoctoral Studies at Western](#) represents interests of both PDAs and PDFs.

Please read [here](#) more on the differences between PDAs and PDFs with regard to their relation to Western.

By M.G.F., PAW President.
